PROFESSIONAL SUMMARY

Junior Front-End Developer and final-year Information Technology student at the Egyptian E-Learning University (expected graduation June 2026). Builds responsive, user-friendly web interfaces with React.js, HTML5, CSS3, and JavaScript (ES6+), holding a 98.3% score in a Front-End Web Development Diploma. Also comfortable connecting front-end applications to back-end services built with Laravel and MySQL. Focused on clean code, accessibility, and pixel-accurate UI.

SKILLS

Technical Skills

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Design, Flexbox, Grid
Tools: Git, GitHub, Vite.js, VS Code, npm
Back-End (Familiarity): PHP, Laravel, Blade, RESTful APIs, Eloquent ORM
Database: MySQL, Migrations, Seeding
Networking: Routing & Switching, TCP/IP (CCNA)

Soft Skills

- Problem-Solving
- Attention to Detail
- Time Management
- Self-Directed Learning
- Team Collaboration
- Clear Technical Communication
- Adaptability

PROJECTS

Bootstrap Responsive Project

github.com/Menaelbana138/Bootstrap-project

HTML • CSS • Bootstrap

- Built a fully responsive multi-section web page using the Bootstrap grid system and utilities.
- Applied custom CSS overrides and responsive breakpoints for cross-device compatibility.

Front-End CSS Projects (Project 1 & 2)

github.com/Menaelbana138

HTML • CSS • JavaScript

- Developed multiple front-end projects demonstrating Flexbox and CSS Grid layout techniques.
- Created interactive UI components using vanilla JavaScript with clean, semantic HTML structure.

Laravel Tasks CRUD System

github.com/Menaelbana138/laravel-tasks-crud

PHP • Laravel • Blade • MySQL

- Built a full task management system with complete CRUD operations using Laravel and MySQL.
- Implemented role-based access control with admin and user roles using the Spatie permissions package.
- Developed Blade-templated views with dynamic data rendering and form validation.
- Configured RESTful routes, Eloquent ORM models, and database migrations.

Multi-Authentication System

github.com/Menaelbana138/multi_auth

PHP • Laravel • Blade • MySQL

- Designed a Laravel application supporting separate authentication flows for multiple user types.
- Implemented guard-based authentication with role separation between admin and regular users.
- Applied middleware protection to restrict route access based on user roles.

EDUCATION

Bachelor of Science, Information Technology

Expected 06/2026

Faculty of Computers and Information Technology, Egyptian E-Learning University (EELU) — 2021 to Present

CERTIFICATIONS

Front-End Web Development Diploma — React.js

04/2025

Software Engineering Future (SEF) — Score: 98.3%, Duration: 4 Months

CCNA: Switching, Routing, and Wireless Essentials

01/2025

Cisco Networking Academy — MOHE 26, Egyptian E-Learning University
